Academic
Session
2023-24

UNDER-GRADUATE PROGRAMS IN ARTS, HUMANITIES & SOCIAL SCIENCES

B.A. (Hons.) Arabic

In this program, the students will learn the Arabic script in the first stage, which may include recognition, reading and writing of the Arabic Alphabet. After having learned the script, s(he) will be able to read short and simple sentences in Arabic and with the advancement, of course, he will excel in understanding the Arabic Text. Students will be able to learn Arabic Grammar which will help in improving reading and writing skills and thus enhance their language performance. Due attention is given to Classical/Modern Arabic Literature. The student will get an overview of the Classical / Modern Arabic language and be able to talk and write about various social and economic issues in the Arabic language. The curriculum also focuses on English-Arabic-English translation of simple political, socioeconomic and cultural topics keeping in view the increasing demand in day-to-day life.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I: Arabic from List A + Any two subjects from List B1 + Any one subject from either List B1 or List B2
                        OR
Combination II: Any one language from List A + Any two subjects from List B1 + Any one subject from either List B1 or List B2

Merit will be based on the best CUET score obtained from any of the above-mentioned combinations of subjects. Candidates who opted for Combination II for admission will be considered only if seats remain vacant after considering all the candidates who opted for Combination I.

Offered by College

S.No.	College Name	UR	OBC-NCL	SC	ST	EWS	Sikh	Christian	PwBD	CW	KM
1	Zakir Husain Delhi College	12	8	4	2	3	0	0	1	1	1

Seat Matrix is as per the information provided by the colleges. The number of seats may vary. Supernumerary seats will be as per University of Delhi norms. Candidates must visit the respective college websites for the updated fee structure.

B.A. (Hons.) Bengali

The B.A. (Hons.) Bengali program seeks to cover critical areas of study, i.e., historical and descriptive study of the language; study of the language for specific purposes, such as Film Script, advertisement, official writing, creative writing, translation, journalistic writing, writing for New Media, etc. Study of specific areas like Manuscriptology, Teaching Methodology, the study of the theories of literature and criticism, and study of the history and important literary texts of Bengali Literature are a part of the Course.

B.A. (Hons.) Urdu

Urdu Literature in the Urdu language has a history that is inextricably tied to the development of Urdu, the register of the Hindustani language written in the Perso-Arabi script. While it tends to be dominated by poetry, especially the verse forms of the ghazal and nazm, it has expanded into other styles of writing, including that of the short story or afsana. The curriculum of B. A. (Hons.) Urdu offers three major components of Urdu Language and Literature and composite culture, which include the Ganga Jamuna Tehzeeb, the vital portion of our secular heritage. With these, a student becomes a responsible civilian and well equipped to meet the growing demand for this language in south Asian studies, which is becoming a fast-growing discipline in many major universities at the world level.

Program Specific Eligibility

> Candidates must appear in CUET in any of the following subject combinations:
> Combination I: Urdu from List A + Any two subjects from List B1 + Any one subject from either List B1 or List B2
>   OR
> Combination II: Any one language from List A + Any two subjects from List B1 + Any one subject from either List B1 or List B2
>
> Merit will be based on the best CUET score obtained from any of the above-mentioned combinations of subjects. Candidates who opted for Combination II for admission will be considered only if seats remain vacant after considering all the candidates who opted for Combination I

B.A. (Hons.) Economics

The B.A. (Hons.) Economics curriculum offers a rigorous basis for much of the advanced thinking in the Economics discipline. It provides the student with a logical paradigm for conceptualising and interpreting the behaviour and interactions of households, firms, and government institutions. The curriculum allows students to choose elective courses from a set of courses with contemporary relevance, thereby offering students the flexibility to prepare for careers in academia, law, management, journalism, government, and many other fields. The program is consistent with global standards in the Economics discipline. It offers training comparable to that of an undergraduate student at the world's best universities.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Any one Language from List A + Mathematics/Applied Mathematics + Any two subjects out of which one should be from List B1

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.

B.A. (Hons.) Geography

Students of the B.A. (Hons.) degree in Geography will learn to use geographic understanding of various subfields such as physiography, resources, global economic systems, socio-cultural aspects, rural and urban milieu, environmental and disaster studies and mapping methods. They are trained to read and interpret maps, prepare transect charts and thematic atlas. They can also read and analyse weather phenomena through weather maps and charts. In addition, students will acquire scientific methodology of data handling, hypothesis generation, testing and analysis. After completing the course, students will also gain knowledge of various technological applications through the study of Remote Sensing and Geographic Information Science, digitally producing maps and modelling applications.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Any one Language from List A + Any two subjects from List B1 + Any one subject from either List B1 or List B2

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.

B.A. (Hons.) Philosophy

The B.A. (Hons.) Philosophy program is an attempt to introduce and provide an in-depth look into one of the most challenging subjects that one can study. It introduces the student to the great philosophers and their ideas and how one thinks about contemporary problems through the lens of their theories. It gives a comprehensive sweep of Indian and Western philosophy and makes students aware of the main currents of thought in Ethics. Students also explore Philosophy of Science, Logic, Feminism and Bio-ethics, amongst many other core and optional papers. The core idea is to make the students aware of the foundational issues related to the world around us, whether in our life, or regarding mind and matter, or existence, or belief, or religion or science.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Any one Language from List A + Any two subjects from List B1 + Any one subject from either List B1 or List B2

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.

B.A. (Hons.) Political Science

This program aims to expose the students to the manner in which the questions of politics have been posed that have implications for more critical questions of thought and existence in society and is being solved. By introducing the philosophers from different traditions, students can answer a few fundamental political questions: Why do we live in political communities? What is the 'best' form of government? How human nature influences political decision-making? How and in what circumstances do we need to resist bad rulers? By the end of the course, students are able to understand the idea of modernity and establish a connection between societal changes posed through modernity and its prescribed political suggestions.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Any one Language from List A + Any two subjects from List B1 + Any one subject from either List B1 or List B2

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.

B.A. (Hons.) Social Work

B.A. (Hons.) Social Work program is a practice-based discipline that prepares its students for achieving the objectives through interventions in real-life situations, which are dynamic in nature. The program offers individualized mentoring to every student and comprises classroom teaching involving interactive pedagogy and fieldwork practicum. The classroom teaching is directed towards familiarizing the students with interdisciplinary theoretical perspectives, principles and skills required for social work interventions. It aims to develop students' personalities through the inculcation of democratic, humanitarian attitudes and values.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Any one Language from List A + Any two subjects from List B1 + Any one subject from either List B1 or List B2

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.

Offered by Colleges

S.No.	College Name	UR	OBC-NCL	SC	ST	EWS	Sikh	Christian	PwBD	CW	KM

B.A. (Program)

B.A. (Program) offers a wide range of subject combinations to attract students to graduate in the subjects of his/her likeness. Colleges offer a range of combinations from which a student may choose the subjects in which he/she may like to pursue his/her further studies. The University of Delhi offers close to 200 BA (Program) Combinations, thereby offering an amalgamation of different subjects (details related to different B.A. (Program) combinations, refer to Annexure - I.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I: Any one Language from List A + Any two subjects from List B1 + Any one subject from either List B1 or List B2

OR

Combination II: Any one language from List A + Any one subject from either List B1 or List B2 + SECTION III of CUET (General Test)

Merit will be based on the best CUET score obtained from any of the above-mentioned combinations of subjects.
Note: As the weightage of the CUET Sections is not the same, appropriate proration will be done.

UNDER-GRADUATE PROGRAMS IN SCIENCE, MATHEMATICS, AND TECHNOLOGY

B.Sc. (Hons.) Anthropology

The B.Sc. degree in Anthropology aims for a comprehensive and integrated framework for understanding human beings and humanities and their adaptabilities across time and space dimensions. It deals with all kinds of communities, including tribal, rural, and urban societies. The curriculum is a broad framework that exposes the students to this diversity and helps them understand the challenges, best practices, and biological and cultural adaptive features of communities that have evolved in the process of adaptations and acclimatization. Anthropology as a discipline is oriented toward a holistic and relativistic understanding of humanity from both biological and cultural perspectives on the one hand and from the distant past to the present and also future possibilities.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Biology/Biological Studies/Biotechnology/Biochemistry

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language from List A in CUET.

Offered by College

S.No.	College Name	UR	OBC-NCL	SC	ST	EWS	Sikh	Christian	PwBD	CW	KM
1	Hansraj College	16	11	6	3	3	0	0	2	2	2

Seat Matrix is as per the information provided by the colleges. The number of seats may vary. Supernumerary seats will be as per University of Delhi norms. Candidates must visit the respective college websites for the updated fee structure.

B.Sc. (Hons.) Biological Science

Biological Science is an interdisciplinary science and relies on strong foundations of Chemistry, Biophysics, Biochemistry, Botany and Zoology. It aims to study the structure and function of different constituent parts/biomolecules of living organisms and their complex inter-relationships to maintain and perpetuate various life forms. The scope of Biological Science as an interdisciplinary subject is extensive. The Biological Science programme at the undergraduate level has been envisioned to emphasize the importance of interdisciplinary nature underlying the study of all the aspects of structure and function of living organisms.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Biology/Biological Studies/Biotechnology/Biochemistry

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Hons.) Botany

The B.Sc. (Hons.) Botany curriculum offers the essential knowledge and technical skills to study plants holistically. Students would be trained in all areas of plant biology using a unique combination of core and elective papers with significant interdisciplinary components. Students would be exposed to cutting-edge technologies currently used in the study of plant life forms, their evolution and interactions with other organisms within the ecosystem. Students would also become aware of the social and environmental significance of plants and their relevance to the national economy.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Biology/Biological Studies/Biotechnology/Biochemistry

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Hons.) Zoology

Through this course, the students will be more equipped to learn and know about different human systems, their coordination and control. The Zoology degree program provides a platform to comprehend classical genetics to understand the distribution of other traits among populations, their inheritance, ethnicity and correlate with contemporary and modern techniques like genomics, metagenomics, genome editing and molecular diagnostic tools. This course's practical and theoretical skills will help design different public health strategies for social welfare. The course has been designed to provide in-depth knowledge of applied subjects ensuring the inculcation of employment skills so that students can make a career and become entrepreneurs in diverse fields of aquatic biology, sericulture, apiculture etc. After completing this course, students can contribute as policymakers in wildlife conservation, animal preservation and environment protection.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Biology/Biological Studies/Biotechnology/Biochemistry

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Hons.) Biochemistry

Biochemistry is the branch of dynamic science that explores the chemical processes within living organisms/systems. The study of Biochemistry aims to understand how all the molecules that constitute living organisms interact to maintain and perpetuate life. It deals with the complexity of living organisms, the microscopic and macroscopic structures within organisms with specific functions, and their systems for extracting and transforming energy from the environment. This course is designed to enable the students to gain theoretical knowledge and hands-on experience in the laboratory. In addition, the course content encourages students to cultivate keen observational skills and develop the ability to analyze and interpret experimental data, making them suitable for future careers in higher education and employment in industry and research institutes.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I: Chemistry + Biology/Biological Studies/Biotechnology/Biochemistry + Physics
                                OR
Combination II: Chemistry + Biology/Biological Studies/Biotechnology/Biochemistry + Mathematics/Applied Mathematics

Merit will be based on the best CUET scores obtained from any of the above-mentioned combinations of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Hons.) Chemistry

The BSc (Hons.) Chemistry curriculum offers courses in inorganic, organic, physical, materials and analytical. The courses will train students with sound theoretical and experimental knowledge that suits the need of academics and industry. The courses also offer ample skills to pursue research as a career in chemistry and allied areas. This program is offered by one of the largest and oldest Departments in the country to produce the best minds to meet the demands of society. The University of Delhi hopes that the programme BSc (Hons.) Chemistry will help students make an informed decision regarding the goals they wish to pursue in further education and life.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Mathematics/Applied Mathematics

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Hons.) Physics

Physics is an experimental and theoretical science that systematically studies the laws of nature operating at length scales from the sub-atomic domains to the entire universe. The core areas of study within the disciplinary/subject area of the B.Sc. (Hons.) Physics program are: Classical and Quantum Mechanics, Electricity and Magnetism, Thermal and Statistical Physics, Wave theory and Optics, Physics of the Materials, Digital Electronics, and specialized methods of Mathematical Physics and their applications in different branches of the subject. Along with the theoretical course work, students also learn physics laboratory methods for different branches of physics, specialized measurement techniques, analysis of observational data, including error estimation, and scientific report writing. The latest addition to Physics pedagogy is computational physics, which involves adapting Physics problems for algorithmic solutions and modelling and simulation of physical phenomena.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Mathematics/Applied Mathematics

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Hons.) Polymer Science

The curriculum of B.Sc. (Hons.) Polymer Science accomplishes excellence in education and research to meet the growing needs of society. This course provides an environment conducive to innovation, creativity, implementation of new ideas and team spirit to foster young and fresh talents. In addition, this course further offers awareness and understanding of polymer science's contemporary trends and growth. This will further be substantiated by enabling students in relevant academic and professional skills through self-reflections and preparing them to contribute to the growing discipline of polymer science and its application in everyday life.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Mathematics/Applied Mathematics

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Hons.) Computer Science

The B.Sc. (H) Computer Science curriculum offers to develop theoretical foundations in computer science to build computational thinking, analytical, and problem-solving skills. The program prepares the students for higher studies in Computer Science and its applications. The course aims to produce skilled graduates with a creative mindset who can recognize a computational problem either in IT industry or society and develop effective solutions. In addition, the students develop expertise in programming skills using contemporary programming languages used by the software industry. It covers core computer science topics like computer systems architecture, data structures, computer networks, operating systems, computer graphics, algorithms, software engineering, database management, theory of computation, artificial intelligence, and information security.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Any one language from List A + Mathematics/Applied Mathematics + Any two subjects out of which one should be from List B1

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.

B.Sc. (Hons.) Electronics

In recent years, Electronic Science has made unprecedented growth in new technologies, new ideas and principles. The B.Sc. (Hons.) Electronic Science curriculum offers undergraduates a complete package to understand fundamental to advanced electronics. They can equip themselves with electronics fundamentals with a comprehensive skill set compatible with industry 4.0 standards. The exhaustive curriculum will prepare them to pursue higher education and compete in the job market. The program covers embedded systems, advanced computer and data communication, robotics, control systems, VLSI Design and Fabrication, Nanoelectronics, Artificial Intelligence, Internet of Things and others.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I: Physics + Mathematics/Applied Mathematics + Chemistry
                        OR
Combination II: Physics + Mathematics/Applied Mathematics + Computer Science/Informatics Practices

Merit will be based on the best CUET score obtained from any of the above-mentioned combinations of subjects. Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Hons.) Instrumentation

B.Sc. (Hons.) Instrumentation is a professional course designed to develop skills that impart knowledge in science and technology of measurement and control; to prepare skilled human resources that can objectively contribute to the design, development, use, and maintenance of various instruments and machine learning environments. The program in Instrumentation is designed to develop academic and practical skills in many technical papers like Transducers and Sensors, Machine Intelligence, Control Systems, Electronic Instrumentation, Measurement Technology, Analytical Instrumentation, Biomedical Instrumentation and Standardization and Quality Control, to produce graduates capable of adapting to technological changes.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I: Physics + Mathematics/Applied Mathematics+ Chemistry
                                OR
Combination II: Physics + Mathematics/Applied Mathematics + Computer Science/Informatics Practices

Merit will be based on the best CUET scores obtained from any of the above-mentioned combinations of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

Offered by Colleges

B.Sc. (Hons.) Food Technology

B.Sc. (Hons.) Food Technology offers its students an opportunity to gain the requisite knowledge, skills and aptitude for food technology. The key objectives of the course are to impart knowledge in areas related to Food Science and Technology; enable the students to understand the food composition along with its Physico-chemical, nutritional, microbiological and sensory aspects; acquaint the students with the technologies of food processing and preservation of plant and animal foods; cereals, pulses, oilseeds, fruits vegetables, spices, meat, fish, poultry, seafood, milk and dairy products; stress on the importance of food safety and quality management, national and international food laws and regulations as well as the importance of food engineering and packaging in the food industry.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I: Physics + Chemistry + Biology/Biological Studies/Biotechnology/Biochemistry
OR
Combination II: Physics + Chemistry + Mathematics/Applied Mathematics

Merit will be based on the best CUET score obtained from any of the above-mentioned combinations of subjects

B.Sc. (Hons.) Geology

This program aims to develop an ability to perceive the geological processes, which generally operate at time scales ranging from days to billions of years, with the fundamental premise that the present is the key to the past. It prepares students to develop their logical thinking and communication skills with science-based imaginative perception. The ethical, societal context of applied geology in economic and environmental contexts is the fundamental balance that a geology graduate student is expected to acquire. Propagating their thoughts through presentations and participation in various related societies enhances their cultural- social-national centric thought.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I: Physics + Chemistry + Mathematics/Applied Mathematics
<div align="center">OR</div>

Combination II: Physics + Chemistry + Geography/Geology
<div align="center">OR</div>

Combination III: Physics + Chemistry + Biology/Biological Studies/Biotechnology/Biochemistry

Merit will be based on the best CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

Offered by Colleges

S.No.	College Name	UR	OBC-NCL	SC	ST	EWS	Sikh	Christian	PwBD	CW	KM

B.Sc. (Hons.) Mathematics

The B.Sc. (Hons.) Mathematics program aims at developing the ability to think critically, logically, and analytically and hence use mathematical reasoning in everyday life. Pursuing a degree in mathematics will introduce the students to several interesting and valuable ideas in preparation for several mathematics careers in education, research, government sector, business sector and industry. The B.Sc. (Hons.) Mathematics program covers the full range of mathematics, from classical Calculus to Modern Cryptography, Information Theory, and Network Security. The course lays a structured foundation of Calculus, Real & Complex analysis, Abstract Algebra, Differential Equations (including Mathematical Modelling), Number Theory, Graph Theory, and C++ Programming exclusively for Mathematics.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Any one language from List A + Mathematics/Applied Mathematics + Any two subjects out of which one should be from List B1

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.

B.Sc. (Hons.) Microbiology

The B.Sc. (Honours) Microbiology program covers a wide range of basic and applied microbiology courses and courses of interdisciplinary nature. The core courses that are a part of the program are designed to build a strong microbiology knowledge base in the student and acquaints them with the applied aspects of this fascinating discipline. The student is thus equipped to pursue higher studies in an institution of her/his choice and apply the skills learned in the program to solve practical societal problems.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Biology/Biological Studies/Biotechnology/Biochemistry

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

S.No.	College Name	UR	OBC-NCL	SC	ST	EWS	Sikh	Christian	PwBD	CW	KM

Seat Matrix is as per the information provided by the colleges. The number of seats may vary. Supernumerary seats will be as per University of Delhi norms. Candidates must visit the respective college websites for the updated fee structure.

B.Sc. (Hons.) Home Science

The B.Sc. (Hons.) Home Science curriculum offers the students the requisite knowledge, skills, and aptitude in all the areas of Home Science. As a discipline, Home Science integrates the ingredients of the sciences, social sciences, and technology to facilitate the study of and enhance the quality of human life. Its approach is therefore inherently interdisciplinary. As a result, students gain employment in research organizations, food and textile industries, dietetic practice, education, child development domains, accreditation of green buildings, strategic planning and communication technologies.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I: Biology/Biological Studies/Biotechnology/Biochemistry + Physics + Any one subject from either List B1 or List B2
                                        OR
Combination II: Biology/Biological Studies/Biotechnology/Biochemistry + Chemistry + Any one subject from either List B1 or List B2

Merit will be based on the best CUET score obtained in any of the above-mentioned combinations of subjects. Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

Offered by Colleges

S.No.	College Name	UR	OBC-NCL	SC	ST	EWS	Sikh	Christian	PwBD	CW	KM

Seat Matrix is as per the information provided by the colleges. The number of seats may vary. Supernumerary seats will be as per University of Delhi norms. Candidates must visit the respective college websites for the updated fee structure.

B.Sc. (Pass) Home Science

This course integrates the ingredients of the sciences, social sciences and technology to facilitate the study of and enhance the quality of human life with an interdisciplinary approach.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I: Any one Language from List A + Any two subjects from List B1 + Any one subject from either List B1 or List B2
OR
Combination II: Any one Language from List A + Any one subject from either List B1 or List B2 + Section III of CUET (General Test)
Merit will be based on the best CUET score obtained from any of the above-mentioned combinations of subjects.
Note: As the weightage of the CUET Sections is not the same, appropriate proration will be done.

Offered by Colleges

B.Sc. (Prog.) Applied Physical Science with Industrial Chemistry

The core courses in Industrial Chemistry are designed to familiarize the students with the industrial processes involved in the commercial production of the products. The program also offers a wide range of electives to prepare students to improve their skills required in academics, research and industrial projects.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Mathematics/Applied Mathematics + Chemistry
Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

Offered by Colleges

B.Sc. (Prog.) Physical Science with Chemistry

This course aims to make students aware of the SI Units, concentration terms, various analytical methods, types of errors in chemical analysis, statistical tests of data, and safe usage of chemicals and their waste.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Physics + Mathematics/Applied Mathematics + Chemistry

Merit will be based on the CUET score obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Prog.) Physical Science with Electronics

The curriculum framework of this course considers the need to maintain globally competitive standards of achievement in terms of the knowledge and skills in Electronics and develop scientific orientation, enquiring spirit, problem-solving skills, and values that foster rational and critical thinking. Also, learners will be taught to synthesize the acquired knowledge and experience for improved comprehension of the physical problems and create new skills and tools for their possible solutions.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I : Physics + Mathematics/Applied Mathematics + Chemistry
OR
Combination II : Physics + Mathematics/Applied Mathematics + Computer Science/Informatics Practices

Merit will be based on the best CUET score obtained from any of the above-mentioned combinations of subjects. Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Prog.) Physical Science with Computer Science/Informatics Practices

The program provides skills to design, implement, and evaluate the computer-based system and apply knowledge of computing to solve computational problems by understanding computer systems, fundamentals, and their application related to physical sciences. In addition, it provides the ability to communicate effectively with a range of audiences.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I : Physics + Mathematics/Applied Mathematics + Chemistry
OR
Combination II : Physics + Mathematics/Applied Mathematics + Computer Science/Informatics Practices

Merit will be based on the best CUET score obtained from any of the above-mentioned combinations of subjects. Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Prog.) Life Science

This program will offer students to acquire comprehensive knowledge of disciplinary subjects along with allied subjects of Biological Science, which will help students to understand and appreciate the diversity of life processes existing in the world as well as their evolutionary aspects. In addition, the course will develop the skills to handle research equipment and computational tools like genomics, meta genetics and gain knowledge in designing holistic public health strategies for social welfare.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Chemistry + Physics + Biology/Biological Studies/Biotechnology/Biochemistry

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Prog.) Mathematical Science

A well-structured Mathematical component in B.Sc. (Prog.) Mathematical Sciences empowers the students to: Solve problems using a broad range of significant mathematical techniques, including calculus, algebra, geometry, analysis, numerical methods, differential equations, probability and statistics, along with hands-on learning through CAS and LaTeX. One of the program's aims is to combine the principles of physics and chemistry, as supported by mathematics, to describe the foundational concepts of the physical world and apply these concepts to new situations. Collaborate with others, including multidisciplinary groups, to solve scientific problems and recognize ethical issues in each profession; logical question assertions and recognizing patterns are other highlights of the course.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Any one language from List A + Mathematics/Applied Mathematics + Any two subjects out of which one should be from List B1

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.

B.Tech. Information Technology and Mathematical Innovation (IT & MI)

This unique course offered at Cluster Innovation Centre, is designed to inculcate an innovation mindset as part of the curriculum and pedagogy. It is a 4 years course with two semesters per year. This course aims to build strong analytical skills through Mathematics and application skills of Information Technology (IT). Skilled graduates with a creative mindset for innovation and entrepreneurship are another highlight of the course. In addition to this, the course is specifically designed to boost undergraduate research. This course provides a choice-based credit system where the students can take courses of their choice, learn at their own pace, undergo additional courses to acquire more than the required credits, and adopt an interdisciplinary approach to learning.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination: **Any one Language from List A + Mathematics/Applied Mathematics + Section III of CUET (General Test)**   **Merit will be based on the CUET scores obtained from the above-mentioned combination.**

Offered by College

B.Sc. Physical Education, Health Education & Sports B.Sc. (PE, HE & S)

In this program, the students will be taught to meet the health, physical fitness, and positive lifestyle-related challenges faced by society members. Besides being trained in numerous sports, the program has compulsory learning of foundation and allied sports science courses. The research element embedded in the program helps students learn the data collection technique, evaluation, and interpretation of the results. This will enable students to provide necessary feedback in the related area of investigation. The students are provided with various choices in the skill enhancement course directly related to implementing knowledge in society. This course creates a strong foundation for all forms of teachers training courses in physical education & sports sciences at various levels.

Program Specific Eligibility

Candidates must appear in both CUET and Performance-based test.
Candidates must appear in CUET in any of the following subject combinations:

Combination I: Any one Language from List A + Physical Education / National Cadet Corps (NCC) / Yoga from List B2 + Any two subjects out of which one should be from List B1

OR

Combination II: Any one Language from List A + Any two subjects from List B1 + Any one subject from either List B1 or List B2

AND

Performance-Based Test

Merit will be calculated by considering the combined 'CUET score (50% weightage) and Performance-based test score (50% weightage)'

CUET score will be the best CUET score obtained from any one of the above-mentioned combinations of subjects.

Offered by College

B.Com.

Commerce is visualised as a link between society and business. The nature and purpose of interaction between both have undergone tremendous change with time. Information technology has re-modelled the shape and design of the business, engendering the metamorphosis of its very nature and the matrix of societal functioning. Recognising the implications of this change, the B.Com. Program aims at building in students an understanding of the functioning and premise of the business world. To achieve this, the program offers an opportunity for students to know different aspects of organizational functioning, financial systems, understanding of the economy, laws governing business, strategies adopted by businesses to reach society, etc. The program also provides the students an opportunity to explore, experiment and equip themselves to serve society not as employment seekers but as an entrepreneur and job creators.

Program Specific Eligibility

Candidates must appear in CUET in any of the following subject combinations:
Combination I: Any one Language from List A + Any two subjects from List B1 + Any one subject from either List B1 or List B2

OR

Combination II: Any one Language from List A + Any one subject from either List B1 or List B2 + SECTION III of CUET (General Test)

Merit will be based on the best CUET scores obtained from any of the above-mentioned combinations of subjects.
Note: As the weightage of the CUET Sections is not the same, appropriate proration will be done.

Bachelor of Management Studies (BMS)

Bachelor of Management Studies or BMS is an undergraduate program for management studies. The course allows students to obtain the knowledge and skills needed to assume management positions in a wide range of organizations. The management Studies program provides students with a solid foundation in the field of management and strategy designing. The electives allow students to develop deeper knowledge in specific areas of interest – finance, marketing, human resource management and management of the global business. In addition to the business management course, it will equip students to understand how organizations work, how they are managed and sensitize students towards national and international environments. Students cantered learning focuses on skills and practices that enable lifelong learning and independent problem-solving.

Program Specific Eligibility

Candidates must appear in CUET in the following subject combination:
Any one Language from List A + Mathematics/Applied Mathematics + SECTION III of CUET (General Test)

Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
